As a result, we decided this summer to not offer the National Workshop any more, but instead to direct interested people to our online course on “Significant Learning by Design”. Online Course. In 2015, Dee Fink licensed Linda Jacoby to offer his course through her company, Optimize Learning.

Designing Significant Learning Experiences
Workshops. We offer campus-based workshops. For more information on these workshops, see the tab on "Workshops". Online Course. In 2012 we began offering an online course on "Designing Courses for Significant Learning". This offered anyone, anywhere, the opportunity to learn about the Taxonomy of Significant Learning and the model of Integrated Course Design (ICD).

This elementary school workshop teaches children a child safety “bill of rights” called Miss Kendra’s List. The program has received national attention after being featured in the 2016 documentary Resilience: The Biology of Stress and the Science of Hope. Part of the program includes a book reading session where counselors read from The Legend of Miss Kendra, a powerful story that teaches ...

Learning Through Reflection - ascd.org
Thinking Skills. Thinking skills are the mental activities you use to process information, make connections, make decisions, and create new ideas. You use your thinking skills when you try to make sense of experiences, solve problems, make decisions, ask questions, make plans, or organize information.

Thinking skills - analytical, critical and creative thinking
A Framework for the Future. Our vision is clear. Creative thought matters. Success in this campaign means Skidmore will continue to be acknowledged as one of the nation’s finest liberal arts colleges, preparing students for lives of achievement and purpose.

Creating Our Future - skidmore.edu
Situated learning is a theory on how individuals acquire professional skills, extending research on apprenticeship into how legitimate peripheral participation leads to membership in a community of practice. Situated learning "takes as its focus the relationship between learning and the social situation in which it occurs". The perspective can be contrasted with alternative views of learning ...

Bloom's Taxonomy - Emerging Perspectives on Learning ... Experiential learning is the process of learning through experience, and is more specifically defined as "learning through reflection on doing". Hands-on learning is a form of experiential learning but does not necessarily involve students reflecting on their product. Experiential learning is distinct from rote or didactic learning, in which the learner plays a comparatively passive role.

Experiential learning - Wikipedia Reflection is thinking for an extended period by linking recent experiences to earlier ones in order to promote a more complex and interrelated mental schema. It involves looking for commonalities, differences, and interrelations.
